

The TUXEDO FP8K-B 8,000 LBS. This lift is a versatile and robust lifting system designed for various automotive storage and maintenance needs. With 8,000 lbs of capacity, it can easily support a wide range of vehicles. The lift is cable driven, ensuring reliable and consistent performance. Steel Approach Ramps provide a smooth and durable surface to drive onto the lift, further enhancing convenience. It is also designed with a Single Point Locking Release, allowing for convenient and efficient operation. Adjustable locking positions offer flexibility in securing the vehicle at different heights, enhancing safety and ease of use. It is also designed to fit in most residential garages, making it a practical choice for home car enthusiasts and DIY mechanics. Notably, the FP8K-B is the basic version. Does NOT include a Caster Kit, Drip Trays, or Jack Tray.
