

# IDEAL 7000TLX

## Low Rise, Portable & Storable Automotive Tilt Lift, 7,000 lbs.

The iDEAL 7000TLX (TLX-7000) is one of the most economical, unique, versatile & convenient vehicle lifting solutions in the market today. The iDEAL 7000TLX is a low-profile, lightweight, portable 7,000 lb. capacity low-rise scissor frame contact tilt lift designed for unibody type passenger & small sport utility vehicles. Equipped with twin dual-action precision gear drive mechanisms, the lifting operation is simply powered by the torque supplied from an electric handheld drill. Additionally, the 'exclusive' dual independent safety lock bars also allow for full operation from either side of the lift. The unique vehicle 'lift & tilt' operation provides greater overall accessibility to vehicle, while also being able to quickly & conveniently be stored out of the way. Designed for multi-use applications, the iDEAL 7000TLX can be widely used in residential garages, auto service shops, autobody repair centers, car dealers or for detailing.
